Dear Mr. Riding:

We have received your Notice of Intention and Mining and Reclamation Plan in which you have indicated that your entire file should be confidential. We will not hold the entire file as confidential, but only that information specifically related to the location, size or nature of the deposit. It is not apparent that any such information is included with the possible exception of the map, drawing no. 31-200 which has the ore outcrop pattern. The map has been placed in our confidential files, and if there is other proprietary information in your filing, let us know.

Respectfully yours,
